**CONSIDER THIS
YOUR INVITATION
TO EXPLORE.**

You Will...

Be Immersed

Keene State's professors are committed to teaching. You'll be learning from them – not from teaching assistants or grad students – and you'll get the mentoring, networking, and research opportunities that come with those close relationships. Our average class size is 19 students, with a student to faculty ratio of 15:1.

Thrive

Whether you know exactly what you want to study or just have a general idea, Keene State will help you find your way to your major as quickly as possible. With over 40 areas of study to choose from, you'll find your passion here. Through our Integrative Studies Program, you'll take classes in and out of your major, and choose paths to explore your interests.

Be Supported

Our professors and staff have one focus – supporting students as they adjust to college life and throughout their experiences at Keene State. You'll have an academic advisor from your first day – whether you know what your major will be or need some time to figure it out. Additional support is available through Academic and Career Advising, the Writing and Math Center, Financial Aid, the Diversity and Multiculturalism Office, Residential Life, and more.

Try Something New

Our students tell us that when they get involved with organizations and other co-curricular activities, they are more likely to thrive at Keene State because they build skills and connections while pursuing their passions. And with over 85 student-run organizations, 18 varsity sports, club and intramural sports, Greek life, and honor societies, there's something for everyone.

Find Home

Our campus is a community – and that's the biggest reason why our students tell us they come here. You'll have friends in and out of the classroom, and you won't be a stranger to your professors and our helpful staff. In addition, beyond our campus lies a true college town. You'll find employment, internship, and service opportunities within walking distance from campus, not to mention entertainment, dining, coffee shops, bike paths, and more.

Be Ready

At Keene State, learning happens both in and out of the classroom. Through research, internships, study away, community service opportunities, and more, you will have the experiences you'll need to be prepared for the real world. In fact, Keene State is ranked #1 in New Hampshire for employability and 94% of Class of 2016 was either employed or pursuing graduate-level education one year after graduation.
