

TEST HTML: Get to know Keene State – from your living room!

Keene State Admissions <admissions@keene.edu>

## Join us for a virtual Information Session

Hi Chad,

Summer is a great time to check out your college options. While traveling might not be on your summer to-do list, joining us for a virtual college visit from your home is easy. You need to know if Keene State is the place for you. We're here to give you answers.

Through a virtual Information Session, you'll get to learn about our welcoming and supportive community, get the tea on our 40+ majors (including our newest majors in neuroscience, sustainability studies, and construction management), discover ways to get experience beyond the classroom (such as internships, undergraduate research, and part-time jobs), and even get a tour of campus.

Get a glimpse of where you could be living and learning during your college experience. Our virtual Information Sessions are held in the mornings and evenings most days of the week.
