

ROBERTO CABRAL: FRAGILE STRENGTH

JUNE 6, 2017 - AUGUST 5, 2017

ABOUT THE EXHIBIT

The G2 Gallery is honored to premiere Roberto Cabral's first conservation photography collection. *Fragile Strength* encourages the viewer to see both the immense strength and delicacy of Africa's most iconic and endangered animals, from towering giraffes to colossal gorillas. Roberto incorporated fine art elements, opting to shoot in black and white, to elevate the collection and the message behind it. The artist believes that the fate of these incredible animals is in our hands, and the choice to do nothing or to act is one of the most important decisions of our time. Roberto Cabral: *Fragile Strength* will be on view through Saturday, August 5, 2017.
